JR CR 1010 Cable Stripper:

Item No: 2245

Nicely engineered as you would expect from a market leading British manufactured machine the new JR CS 1010 cable strippers turn scrap and waste electric cable into a profitable clean copper and plastics revenue stream.

The new JR CS 1010 cable strippers have a stripping capacity of 1.5mm to 76mm outer cable diameter and strip the waste and scrap electric cable with both single and double finely adjustable cutting blades.

Single or 3 phase powered the new JR CS 1010 cable strippers weigh in at 80Kg and are simple, safe and productive in use and are ideal for recyclers, production workers.
