SMB-F200 Scrap Metal Baler

Load Many Scrap Metals In ,

One High Density Bale Out !

Benefits:

- SMB-F200suitable for compacting scraps Scrap metals,scrap coppers,scrap aluminum etc
- Extremely high production efficiency
- Max produce 150kgs per bale
- With automatic ejecting bale system
- Three rams compressing
- Safety warning marks
- CE marks

Technical Specifications:

Weight Of Bale :150kgs

Main Ram Force:200tons

BaleDimension:500×400×400mm

PressingBox :1600×1200×800mm

Output:3900kgs per hour

Motor Power:37kw

Diemnsion:4200×3200×2100mm

Weight:16tons

Operation Instructions

Connect machines to power(220/380V/400/415V)

1. Check sense of rotation of motor (CLOCK)

Before operate the machine for the first time
