JR CS 2010 Cable Stripper:

Item No: 2246

Nicely engineered as you would expect from a market leading British manufactured machine the new JR CS 2010 cable strippers turn scrap and waste electric cable into a profitable clean copper and plastics revenue stream.

The new JR CS 2010 cable strippers have a stripping capacity of 1.5mm to 115mm outer cable diameter and strip the waste and scrap electric cable with both single and double finely adjustable cutting blades.

Single phase or 3 phase powered the new JR-RC3000 cable strippers weigh in at 350Kg and are simple, safe and productive in use and are ideal for recyclers, production workshops and installation site workers.

PRICE: £ POA + VAT ex works
