DTX 300 RB Rebar Shear: Item No: 18985

Our new rebar shear cropper DTX300 RB machine is the market leading machine for cutting shearing and chopping rebar.

British built right here in the heart of southern England the Deltax DTX300 RB has all the power required to cut concrete reinforcing rebars to length.

With a cutting shearing cropping force of 135 tonnes our incredible RB machine easily cuts 1 7/8" bar or 1 3/4" HT rebar.

Powered by a 3 phase 10Hp electric drive motor our new rebar shear cropper DTX300 RB shear has an impressive 10 - 30 cuts per minute cutting cropping speed.

Giving the DTX300 RB machine the power to perform is only half the story as our market leading rebar cutter comes complete with a super safe hydraulic hold down clamp.

A foot pedal control and safety guarding makes it super safe in use and integral forklift lifting pockets allow for full mobility in the work area.
